## WHY CHOOSE E6KX - E8KX

### 1 HIGH ENERGY SAVING

- Impellers and diffusers in **stamped stainless steel**: performance over time
- **High efficiency** pumps: best in class

### 2 ROBUSTNESS AND RELIABILITY

- Valve and suction casing in **high precision casted stainless steel**
- **High component thickness**: life over time

### 3 CORROSION AND ABRASION RESISTANCE

- High quality of **stainless steel** components
- **Protection of the coupling area** from direct contact with the liquid

### 4 INTERCHANGEABILITY

- Coupling according to International Standards **NEMA 4-6-8**
- **Easy replacement**

### 5 FLEXIBILITY

- Use with **boosters** and **cooling shrouds**
- **Horizontal** and **vertical** installation
