PART NUMBER: PCWIS-SILPIN

**SILENCING PIN TOOL**

VERY QUICK TO RETROFIT OVER EXISTING MCP'S WHERE STANDARD CONDUIT IS USED.

AN IDEAL PRODUCT FOR SITES WHERE MCP'S ARE BEING PRESSED BY PRANKSTERS

This unique cover has been helping stop false fire alarms without restricting legitimate operation of manual call points. Ideal for schools, shopping centres, clubs, universities, hospitals, nursing homes, hotels and all public buildings where there is a history or a threat of false fire alarms.

When lifted to gain access to the break glass, its battery powered integral sounder emits a piercing 96dB (at 1 metre). Immediate attention is drawn to the area and a prankster will either run or be caught.
