

Description

A product designed for conventional fire alarm systems, it is an ideal solution for environments that require a discreet but affective device.

Used as an ancillary visual alarm in fire systems; LIFECO Sounder with Beacon is suitable for conventional and 2-wire fire systems as well for general alarm and signalling systems.

As with the wider LIFECO range, the product is designed to fit any recessed single gang box, giving a flush finish or surface mounted using the default surface box.

Body colours available are Red and White.
Strobe colours available are Red, Clear, Amber, Blue and Green.
